Caring for Your Provenance Signature Collection Synthetic Wicker (HDPE) Products

Embracing the healing elements of nature, the **Provenance Signature Collection** offers a selection of material palettes curated to emphasize the concept of wellness. The Provenance Signature Collection includes pieces crafted of highly sustainable synthetic wicker. These all-weather wicker pieces are made from and fabricated on powder-coated aluminum frames for outstanding protection and longevity. Sustainable materials contribute to well being for people and the planet alike while withstanding outdoor conditions with minimal care.

Features

- HDPE plastic is the most environmentally stable of all plastics, giving off no harmful fumes into the environment and requiring minimal energy to produce.
- Aluminum frames deliver strength comparable to steel with unmatched lightweight design flexibility to work in any setting.
- All-weather wicker provides a handsome finish for easy-care, outdoor living.
- Provenance Signature Collection furniture is designed for full outdoor and indoor use.

Care of Synthetic Wicker Woven Pieces

- Clean woven pieces and seat cushions by sweeping away dirt with a soft-bristled hand brush.
- Wipe woven furniture with a soft, clean, non-abrasive cloth and a mixture of 1-part clear (not dyed) dish soap to 3-parts clean, cold water. Rinse with clean, cold water and allow to dry naturally.
- Use high-quality, breathable furniture covers to protect furniture when not in use.
- Avoid acidic or oily substances coming into contact with woven fiber or cushion covers.
- Blot up spills immediately with a clean damp cloth and rinse with cold water.

Caring for Your Provenance Signature Collection Synthetic Wicker (HDPE) Products

- Never pick at, cut, or play with woven fiber. Keep sharp objects and cutting tools away from furniture.
- Avoid scrapes, scratches, or impact to powder-coated metal frames. If the powder coating is damaged, the metal can begin to rust or corrode.
- Only use furniture on level surfaces and do not rock back and forth on any type of seating.
- Do not climb, stand, or jump on or off any type of furniture. Do not sit on tables, chair arms, or seat backs. Chairs and stools are designed for seating only one person at any time. Never use furniture as a stepladder.
- Do not leave sun or reading glasses on woven fiber outdoors. They can magnify sunrays and burn the synthetic wicker.
- Use high-quality, breathable furniture covers to protect furniture when not in use.

Care of Metal Frames

- Clean powder-coated aluminum frames with dish soap and clean water and a soft cloth. Rinse and let dry.
- Do not use abrasive cleaners, harsh chemicals, or brushes on any part of the frame.
- Avoid use in extreme weather

Care of Cushions

Provenance Signature Collection Leeward chairs and ottomans include cushions made from regular indoor foam protected with a raincoat finish for water resistance. Cushion covers are made of Ateja sunproof olefin fabric in the Palazzo 163 color and are recyclable.

- Hand-wash cushion covers with a mixture of 1 part clear (not dyed) dish soap to 3 parts clean, cold water. Rinse with clean, cold water and allow to dry naturally. Do not place in dryer or near a source of heat.
- Do not clean with detergents, harsh chemicals, or bleach.
- Do not dry-clean sunproof fabrics.
- If zippers stick, use dry candle wax or dry, white soap tablets to lubricate the zipper.
- To remove wrinkles from olefin cushion fabric, we recommend steam. If ironing, use the lowest iron temperature. Temperature must be below 110 C/230 F or fabric will melt.
- For sunproof fabric cushion covers, follow all fabric care guidelines: Machine wash in lukewarm water (up to 40 degrees Celsius / 100 degrees Fahrenheit) on the gentle cycle. Add color-safe bleach if desired. Tumble dry on a low permanent-press setting and iron at a low temperature (Low = 110F / 230C).

We Recommend

- Regularly inspect all furniture for cracks, tears, or cuts.
- Never drag furniture across a floor or surface and do not pull furniture by synthetic wicker.
- Move furniture under cover during winter, if possible, and store upright to prevent moisture from entering metal frames.
- If this is not possible, cover furniture with a professional-grade furniture covers.
