## *luscious new colors and textures*

*Our expanded range of ceramic glazes and textures adds fresh options for layering outdoor and indoor specifications. Created by Laura Muller for the Provenance Signature Collection, sparkling metallics and soothing rich neutrals insert balance and intrigue. Visualize Laura's cool aqua and forest-inspired glazes in a tropical setting. Seasonal Living's new glazes introduce mystery—think Citrus or Smoke. Our popular saturated zingy or jewel-like tones punctuate designs beautifully, and interesting textures complement moody spaces with on-trend finishes.*

*We've expanded on our original line of ceramics to bring you more architectural options with greater scale and with new on-trend glazes and textures that support our focus towards creating beautiful OUTdoor-IN Living products.*
